Hi <<Don't put your details here!>>,

SciML Leeds, in collaboration with Imperial College London and the Alan Turing Institute, have organised an exciting workshop on the '**Latest Developments in Physics-Informed Machine Learning**'.

The main purpose of the workshop is to provide a forum to present and discuss ongoing research, and to connect researchers working on similar topics. It will begin with a catered lunch, followed by keynote talks, flash talks and poster presentations with a poster competition. This is a free event and open to all, but registration is required to present.

More information and details of how to register can be found [here](#).

Additionally, **there is funding available from LIFD for 10 PGRs to attend this workshop**, courtesy of the University's Higher Education Innovation Funding (HEIF). To be eligible for this funding, you must be a PGR undertaking a fluids-related project. This funding will pay for your travel to and from London. To apply to this funding, please fill out [this](#) form by **23<sup>rd</sup> February 2024**.

If you have any questions, please do not hesitate to email us at [sciml@lists.leeds.ac.uk](mailto:sciml@lists.leeds.ac.uk).
